# DANGER MAN AT

**T**HE DANGER Man is back in town!

And with him comes the excitement, suspense, sinister danger — and the beautiful women — that helped make him an international television hit.

The **Danger Man** is Special Security Agent John Drake, played by good-looking Patrick McGooan.

He was so popular in the previous half-hour series that the producers have extended episodes of the series to an hour. **Danger Man** will be seen each Saturday night on TCN9 at 7.30.

**Danger Man** is a man who jousts with danger, a man who takes calculated risks, a man dedicated to his ideals.

He respects his adversaries, and he respects the beautiful women who come into his life.

Big-name stars support Patrick McGooan throughout the series. The producer again is Ralph Smart, the man who created and devised **Danger Man**.

All the episodes are directed by leading motion picture directors who are masters of their craft.

Excitement and suspense are the keynotes of stories which live up to the title. The emphasis is on **DANGER**.

John Drake's commissions take him to the unexpected corners of the world as

● BEAUTIFUL Magda Konopke who plays the role of actress Conchita Parrondo in the **Danger Man** episode, *A Date With Doris*.

well as to its exciting and picturesque cities.

In his profession he is contacted only by individuals at the highest level — by Ministers of State, by heads of the various Intelligence Services, by Interpol, Securite, by Publico Asiquerotza, by Scotland Yard.

The world Drake operates in is one of intrigue and excitement. The issues at stake are of world-wide importance — vital and realistic. The stories are human, personal, dramatic conflicts, often with an international prize at stake.

Drake is a man of the world — at home anywhere. We meet him in the cafes of Naples, in the dives of neurotic Berlin, backstage in Paris, and at a London dinner party.

He uses a facade behind which he carries out his work as a Security agent. This facade is that of an international sportsman.

This is fitting and convenient, for Drake is a crack shot and a very fast car driver.

Drake detests bloodshed — never shoots to kill.

However, he is a ruthless hunter who gives and expects no quarter.

The **Danger Man** episodes are action stories of intense excitement by top writers from both sides of the Atlantic.

Patrick McGooan is a New York-born film actor with an international background, who has achieved great success on the London stage.

He's handsome, virile, six-foot-two, powerful and yet polished.

Patrick says: "I see John Drake as a man who has done a lot of jobs in his time.

"He has seen a lot of the world and has studied people.

"He is sophisticated.

"He enjoys the company of women, but avoids romantic entanglements which might lead him to the altar with any one of the 39 international beauties who are with him in the series."

# WORK

*Exciting series  
returns — if  
you can stand  
the suspense*

● **DANGER MAN** John Drake (Patrick McGeehan) dressing a wound received by Peter Miller (James Maxwell) in the episode, *A Date With Doris*.

## ASTHMA BRONCHITIS

Up till now, to get relief from an attack, you used a drug of some sort; no doubt you have been doing that for many years—and you'll continue doing it if you don't use Membrosus. You wonder what this Membrosus is? Well, it's a dry inhalant, completely different in every way from all other treatments. There are no drugs and you don't use it just to get relief from an attack when it comes. Instead, you inhale regularly every morning and evening whether you have an attack or not. It takes about 10 minutes. What happens? Something different to what you are accustomed. You'll find the attacks will become less severe and less frequent, and after a while—no attacks at all! That can happen, even though you have had the complaint for many years and you have despaired of ever getting worthwhile relief. Here's what one happy user says: "Yesterday I got up without coughing—the first time for fourteen years. Four months ago it took me an average of 35 minutes to walk from the station to my work . . . not a great distance either, and I was always knocked up and short of breath. Someone told me about Membrosus, the DRY INHALANT TREATMENT. I tried it as I have tried a dozen other things, hoping for relief. Imagine my surprise and intense joy when, after a short period, I felt definite relief. And when the other morning I got up without coughing for the first time in fourteen years, I began to look at life anew. Now I walk to my job comfortably in seven minutes, smoking my pipe, and suffer no discomfort. Now there is no coughing, no tight, bound-up feeling. I am able to lie down and sleep at night without the nightmare of an attack and enjoy meals without any ill-effects.

For particulars, call or send 5d. stamped, addressed envelope to Sole Distributors:
